Medicus Partners Chosen as Member America's Fastest Growing Staffing Firms 2008

7.21.2008 - Medicus Partners was recently ranked the 28th fastest growing, privately held staffing firm in the US by Staffing Industry Analysts.

To make the final cut, companies had to have a compound annual growth rate of more than 25% between 2003 and 2007, adjusted for acquisitions. Companies also had to be privately held, U.S.-headquartered and independently owned. In addition, they had to have sales of at least \$1 million in 2003. Staffing Industry Analysts, headquartered in Palo Alto, CA was founded in 1989 and is the premiere research and analysis firm covering the contingent workforce and third-party placement industries.

"When we started our firm, our goal was to do an excellent job for our clients and to provide a great work environment in which our people could work and grow. Our growth is a testament to maintaining that focus over the last seven years," commented Bob Collins, Managing Partner of Medicus Partners.

In the five years under consideration (2003-2007) Medicus Partners' compound annual growth rate was 44%. Jim Stone, a co-founder of the firm, added that "Our senior leadership team should be proud to be recognized by the Staffing Industry, across all sectors (light industrial, office, IT staffing, healthcare, etc) as a top growth firm. We have been very fortunate to attract and retain excellent, excellent people, and that has made all the difference for us."
