I prefer to fill searches in-house, but as healthcare changes, the recruitment and candidate availability also changes. Now, when I have a top priority search, I call The Medicus Firm. I have found any firm to only be as professional and competent as the individual with whom you are assigned. Besides successfully filling our openings, I have found my contacts to be very knowledgeable, professional and above all, honest and upfront about the entire process.

They provide us with personalized service and ultimate attention to detail. They do an in-depth client consultation and generate a client profile for us. They help us develop the necessary parameters to make the venture successful for everyone involved. They present screened, qualified candidates that are educated about our opportunity and facility before we interview them. I am pleased to say their principals have the competency and integrity that makes The Medicus Firm a quality firm to work with.
