

August 17, 2007

Mike Baumgartner President
St Francis Hospital
Maryville, MO

In August of 2004 we retained Medicus Partners to recruit a psychiatrist for our community. They had done successful work for other SSM facilities and I was impressed with the individuals with whom I met.

Approximately three months into the search, we happened to fill the search through other means. I had enough positive exposure to Medicus Partners and they had presented solid enough candidates that I felt good about switching the search to an Orthopedic Surgery search. That effort commenced in January of 2005 and was filled within about 8 months of its inception.

We are very pleased with the effort put forth, the flexibility of the firm, their professionalism and the end results. I recommend Medicus Partners based on their work here and will definitely consider using them again if the need arises.

Sincerely,

Mike Baumgartner
