To Whom it May Concern:

Matt Forester has set a new standard for retained search recruiters. I have worked with several recruiters and I've had great results from all the companies. Matt had some big shoes to fill and he stepped up to deliver. I look at Matt as a partner or extension of my department—to help me create leverage by reducing the time to fill gap and by helping us recruit world-class talent.

Matt has a talent for adapting his work style to fit your needs and preference. He is persistent, diligent, and focused. Most of all he is serious about his job and performing at a high level. He takes pride in his work and he knows how to create momentum and get the job done.

We are working in one of the most challenging and competitive environments in the country. It takes dedicated people who demand the best and who have the endurance to push forward with excellence day-in and day-out—Matt is this type of recruiter. I would be glad to provide any reference you need about Matt Forester and the Medicus Firm.

Hiring the Hands that Heal,

Jason Scott
