Dru Meredith  
Director of Physician Recruitment  
Firelands Regional Medical Center  
Sandusky, Ohio 44870

The Medicus Firm consultant and I have successfully worked together on several searches. Most recently, our community was in immediate need of a medical oncologist. With a thorough understanding of our community, the specialty and our needs, he quickly put together a detailed search plan and gave us confidence that if we worked together we could get the job done.

The Medicus Firm presented the doctor we hired. The candidate was well-informed of our situation, understood both the positives and negatives of the area and the opportunity and was prepared to make a decision.

I have enjoyed working with my consultant throughout the process. He is a professional in all areas of physician recruitment. He is cordial, detailed-oriented, friendly and very ethical. I will continue to work with The Medicus Firm and strongly recommend them to work with you on any of your physician recruiting needs.
