Katrina Kaczmarek
Physician Recruiter
St. Mary's Medical Center
Evansville, IN

I don't usually make use of retained firms, however on occasion I have a really difficult or urgent search and I sign a firm. I have only worked with two outside firms. Medicus Partners was the first outside firm I worked with and I was impressed with the recruiter I was assigned and the physicians he delivered. We had been looking for a Pulmonologist for 5 years when I came to work at St. Mary's so I engaged Medicus Partners, and we had a quality physician signed within 6 months. That physician is currently here, practicing and very happy.

Since finding the Pulmonologist I have signed Medicus Partners on two additional searches. We have had some good candidates, and I look forward to having completed contracts in the near future.

I would strongly recommend Medicus Partners to any hospital or organization that is seeking a knowledgeable, dedicated company to assist with physician staffing needs.
