Re: Reference for Medicus Partners

To Whom It May Concern:

Medicus Partners recently worked with us to recruit an Internist for our hospital-owned clinic. After the successful completion of the first search, we retained Medicus Partners again, to find a second internist for another group. Not surprisingly, they did an excellent job again and filled the position within 60 days. I found our consultant to be direct and timely in his communications throughout the recruitment process. Medicus Partners presented us with highly qualified candidates. The candidates were well briefed and prepared for our phone and on-site interviews. All details were taken care of with the recruits and follow-up conversations were handled in a timely and professional manner. Results were immediately communicated back to us.

I would definitely recommend Medicus Partners to any organization interested in recruiting physicians. We had been working with another retained firm and numerous contingency search firms for over a year to fill the position, but Medicus got the job done within a few months. Their professionalism, follow-through and results were excellent. They were very knowledgeable of the physician market and compensation issues that contributed to the success of our search. Medicus Partners is a search firm I will use again.

Please do not hesitate to contact me regarding any questions that you may have regarding Medicus Partners and their services.

Sincerely,

Eric Jensen
