Subject: Medicus Partners Endorsement  
To:

To Whom It May Concern:

On behalf of Asante Health System, it is my pleasure to recommend the services of Medicus Partners to your organization. Our hospital was given the difficult challenge to recruit full-time intensivists to our area within a short time period. The pulmonologists who provided us with critical care coverage were frustrated and needed additional support.

I personally worked with Medicus on the recruitment process. I was impressed with the professional manner, responsiveness to my recruitment needs, and open-style of communication.

Medicus was successful in sourcing and recruiting a high-caliber physician candidate for us within the first week of our search. Shortly thereafter, we signed a contract with this same physician. Although these results are probably not the same for all Medicus clients, it reflects their expertise in physician recruitment. I'm confident that we will use their services again when the need arises in the future.

Best Regards,

Aaron Rust
