On behalf of Amarillo Family Physicians Clinic, P.A., I am pleased to recommend The Medicus Firm for their outstanding recruiting and consulting performance.

Knowing the importance of a community and practice fit, The Medicus Firm visited the practice for an entire day. They walked in the shoes of our providers with the goal of making sure they found the correct fit for our group. Every physician they presented was pre-vetted and more importantly, prepared to make a decision to move forward.

Within 112 days of starting with The Medicus Firm we signed our first primary care physician and have already activated another Primary care search!

This experience has helped us understand why The Medicus Firm is an Executive Partner with MGMA. They care for their clients and produce great results! They deliver! If you are considering a search firm to help you recruit, I highly recommend you take a look at The Medicus Firm and experience what I have.
