To Whom It May Concern:

I am the director of physician recruitment at Jefferson Regional Medical Center in Pine Bluff, Arkansas. After working with multiple firms in the past, including the nation's largest physician search firm, we were left dissatisfied with only invoices to show instead of physicians. We were very apprehensive to hire another firm with the risk of no performance.

We partnered with The Medicus Firm in June 2013 under a Multiple Search Agreement to successfully recruit a Hospitalist and an Orthopedic Surgeon. Our consultant, Jason Farr, performed beyond our expectations. Less than 60 days after initiating the searches, we secured a highly qualified Hospitalist with ties to our area. 30 days later, we recruited an outstanding Orthopedic Surgeon who is already making a tremendous impression on the medical staff and patients.

We will continue to work with The Medicus Firm on other Primary Care and Specialty searches in the future. Jason truly understands our goals as an organization and has become a partner and an extension of our hospital. I am pleased to be a reference and recommend The Medicus Firm to any hospital or group looking to recruit providers.

Sincerely,
