

HOUSTON HEALTHCARE
Houston Medical Center • Perry Hospital

To Whom It May Concern:

We chose to work with The Medicus Firm based on their unique structure and have been very pleased with the results. In a short time period, they have successfully recruited an ENT for us and are working diligently on other searches that we expect to have filled soon.

The Medicus Firm is unique in that the recruiter I work with only works in Georgia, which makes him more knowledgeable of the market here and better-able to sell the positives of living and working in our state. In addition to that, we enjoy not having to pay for their services on a per search basis as we have lots of recruitment activity that we undertake outside of their efforts so we don't lose money with them if we fill a search on our own. I also enjoy that I've dealt with the same people at the firm and not had to deal with the turnover that I've seen at other firms.

I definitely recommend The Medicus Firm to anyone looking for a unique and successful approach to physician recruitment.

Sincerely,

Dawn Carpenter, MHA
