To Whom it May Concern:

We have worked very successfully with Medicus Partners and now, The Medicus Firm, for several years. They have placed two family practice physicians, a psychiatrist and an ER physician with our hospital.

Mark Saurette is the recruiting Principal with whom we work and we have been impressed with his knowledge of each specialty and with his ability to execute on our searches. He is diligent in his follow up and communications and does a great job on our behalf.

We have continued to work with The Medicus Firm and are very pleased with their efforts. I recommend them to anyone looking to add physicians to their staff.
