

March 24, 2020

To whom it may concern,

Morehouse Community Medical Centers, Inc. d/b/a CommuniHealth Services is a Federally Qualified Health Center located in a small community in North East Louisiana. Our previous experience with a retained search firm resulted in a poor experience and created an urgent need to replace our dentist.

We chose to partner with The Medicus Firm because of their experience in the industry, track record of success and high ratings.

The Coronavirus triggered mandates in Dallas, Texas and for safety reasons Medicus moved the entire company to a work from home footing. The transition was made seamlessly, communication never lagged and they were able to locate, work through travel challenges, and help sign a great candidate. The search was completed within 37 days of the profile date.

The Medicus firm never overpromised, provided a well thought out structured approach to our search, communicated well, and proved to be a reliable recruiting partner.

Their experience and resources allowed them to succeed where another national firm failed. We are very happy with our experience and can heartily recommend The Medicus Firm to your organization as a reliable recruiting partner. If you have any questions you may reach out to me here and I would be happy to comment.

Sincerely,

A handwritten signature in black ink that reads "Katie Parnell".

Katie Parnell, CEO
CommuniHealth Services
