

MINNESOTA GASTROENTEROLOGY, P.A.

Premier Gastroenterology Care

May 23, 2016

To whom it may concern:

I first retained The Medicus Firm back in February 2015 to meet our needs for expansion of services which included recruiting physicians from very difficult to find specialties. Shortly thereafter, we successfully hired a perfect physician to join our group.

Because of the unique nature and urgency of our needs and their previous success, last month we chose to re-engage The Medicus Firm. In less than 60 days from start to finish our recruiter placed 3 Anesthesiologists! The searches were a high priority and came with their own unique challenges, but they delivered on what they promised.

Throughout the entire recruitment process, both times, we were presented with quality candidates who fit our parameters, understood the community and would make a positive contribution to our medical staff. Every physician we interviewed was a candidate that was interested in signing. This made our internal processes flow efficiently into a productive site visit, interview and subsequent offer.

I have worked with all types of recruitment firms over the years and to date I have never had the success that I experienced in such a short time. The Medicus Firm by far exceeded my expectations. Their team has demonstrated a strong knowledge about the region, a collaborative approach to the recruiting process, thorough communication skills and a willingness to go the extra mile.

We could not be happier with the excellent level of service and results they have provided. Our recruiter truly understood our goals as an organization and has become a partner and an extension of our practice. TMF is a valuable resource for Minnesota Gastroenterology and we look forward to a lasting relationship.

Sincerely,

Marit Brock, SPHR, CMPE
Chief Performance Officer
