To Whom It May Concern:

It is with great pleasure that I recommend The Medicus Firm and more specifically my regionalized recruiting partner/team for any physician recruitment needs that may arise. Our facility is located in far northwestern North Dakota and we only recently engaged with The Medicus Firm to assist us with a number of physician and physician extender needs. Thus far we've already secured a very impressive Physician Assistant to join our staff and we have several additional interviews already scheduled.

I am impressed with our recruiting partner's ability to assimilate himself into our community and our facility and I am confident in his ability to present only the best candidates. We were able to sign our first candidate in less than 90 days from starting with this firm, a truly excellent testament to their efforts!

As primary care physicians and physician extenders become more and more difficult to secure, I highly recommend that you engage with The Medicus Firm.

Sincerely,

Barbara A. Curren
