RE: The Medicus Firm – Letter of recommendation

To Whom It May Concern:

Being new to physician recruitment I instantly knew there were individuals with far superior knowledge and resources than I could ever imagine. Understanding that I would not be able to take this challenge on alone, I began to identify partners who I could work with and learn from. Instantly, I found a perfect match with Medicus.

It is a daunting challenge to recruit an OB/GYN to a rural community, especially since my hospital had taken as much as a year to recruit candidates in the past. Once again, we were faced with another lengthy recruitment, that had already lasted five months and very little to show. At that point, we opted to bring in the professionals. Upon contacting Medicus we were able to develop an efficient strategy and began identifying ideal candidates. Medicus did not bombard us with CV's which were not relevant to our needs. Rather they focused on what we asked for, placing our needs and desires at the forefront of their search. Customer service like this is hard to find, and easy to appreciate. It is even easier to appreciate service like this when they were able to identify an excellent candidate within 20 days of beginning the search. Through constant communication with my group and the candidate we were able to close the deal in less than a month.

Due to these impressive results we have enlisted them to help us with our next search. They have proven time and again the ability to go above and beyond to meet the needs of their clients. It has been a pleasure to work Medicus, and I would recommend them to anyone.

Sincerely,

Nicholas Spoonmore, M.H.A
