

Oklahoma Institute of Allergy Asthma & Immunology would like to provide this letter of recommendation for the physician recruitment services rendered by The Medicus Firm. As a small private practice with the desire to grow, we recognized the importance of having the right providers join our team.

After internal efforts did not provide the volume or quality of candidates we desired, we began evaluating recruitment firms. The Medicus Firm stood out for many reasons, a few being; their industry leading Client Satisfaction, their transparency, and their client friendly agreement structure.

We engaged with The Medicus firm and quickly knew it was the right decision. Our recruiter, Falon, came on-site and was able to demonstrate the expertise and knowledge that would be needed for us to be successful. As a team, we put together a strategy and within two weeks of implementing our strategy, our search truly came to life.

Over the next six weeks, we were provided many thoroughly vetted and screened candidates that would fit well within our culture and practice. We scheduled two of them for interviews, extended an offer to our most desired candidate, and expect to have this candidate join our team in the coming days.

It's my belief that without the assistance of The Medicus Firm, we would not be in the position we are today. We took a leap of faith based on their stellar reputation, and previous success in our area and with other similar groups.

Without hesitation, our entire team would recommend The Medicus Firm to anyone who is looking to hire additional providers. The value they have provided OIAAI solidifies them as a long-term partner. If you would like to learn more about our experience, please give me a call. Each time we have additional recruiting needs, we know who to call, and I'd strongly recommend you do the same.

Sincerely,

Tyler Messec
