To Whom It May Concern,

I am happy to be able to provide a reference for The Medicus Firm. We are a community hospital located in Saint Mary's PA and over the years have used various resources for our searches. We retained The Medicus Firm for several difficult searches. We decided to engage them based on the reputation they had with other clients in Pennsylvania. We liked their pricing structure and their history of placements within our region, and we were optimistic that they would do a good job.

I am pleased to report that the results were even better than we had hoped. Our recruiter Dustin Jonas was very knowledgeable about our region. He visited our hospital in September, and his profile of our opportunity was very detailed. He was able to quickly identify candidates, and we had excellent physicians with ties to our area. We have now signed a IM and PED, with others pending.

The bottom line is they delivered on what they promised.

We will continue to consider The Medicus Firm a valued partner with our hospital. I would recommend them to anyone, especially community hospitals in areas that serve smaller populations. They know how to target the right candidates and how to market opportunities like ours, and I trust they would do the same for others.

Sincerely,

Michele Palumbo
