To whom it may concern:

When it comes to Physician Recruitment, the "fit" of an individual to the medical community is equally as important as his or her abilities. The same is true for consultants. I am pleased to offer this letter as a reference for The Medicus Firm. Despite my apprehensions of retaining yet another firm that may or may not produce results, we chose to engage The Medicus Firm. I am happy to report the results have been great.

We had a need to source the right candidate within a short time and The Medicus Firm delivered. Within a few weeks of beginning our search efforts we were having serious discussions with the perfect GI candidate and in less than 60 days from the initiation of our search we signed and secured not one, but two Gastroenterologists. We are now in the process of interviewing an Internal Medicine candidate that I believe will result in another placement.

I have worked with all types of recruitment firms over the years and to date I have never had the success that I experienced in such a short time. The Medicus Firm by far exceeded my expectations. Their team has demonstrated a strong knowledge about the region, a collaborative approach to the recruiting process, thorough communication skills and a willingness to go the extra mile.

We could not be happier with the excellent level of service and results they have provided. I highly recommend The Medicus Firm to anyone who is searching for a committed and capable search firm that delivers on their promises and doesn't compromise their integrity. Our recruiter truly understood our goals as an organization and has become a partner and an extension of our practice. The Medicus Firm is a valuable resource for Prime Healthcare and we look forward to a lasting relationship.
