Re: The Medicus Firm

I am the co-founder/owner of a small, rural primary care clinic in Sallisaw, Oklahoma which is a community of about 8,000 located on the state's eastern border. We are a one-physician clinic and a few months back learned that our beloved doctor had some serious medical issues which were going to prohibit him from practicing. This put our little clinic in a real bind, so we reached out to The Medicus Firm for help. We retained their services on August 2nd, 2018 and were quickly connected with our recruiter, Chad Rudel who performed an in-depth profile of our situation and needs on August 8, 2018. Having no experience with the primary care market let alone recruiting; he consulted with us on what to expect and gave us sound direction on what we needed to do to be competitive within this crazy primary care world. We were in a critical state in that we could not foresee going 6 months without a physician. Understanding our sense of urgency, Chad quickly put a rush on the marketing, and we were quickly presented with (4) qualified candidates; one of which seemed to match what we wanted and needed, and we had him onsite for an interview on September 12, 2018. I am ecstatic to announce that he signed an offer letter on the spot! From the initial contact with Chad this was just 35 days! We are looking forward to his arrival and being able to make a difference in our clinic.

The Medicus firm and Chad Rudel truly were our partners in this recruitment, and I felt they always had our best interest and that of this clinic in mind. In other words, I truly believe they cared about the welfare of this clinic and its patients. Chad maintained regular communication with me day and night via phone, text and email to make sure everything was always handled and that we were set up for success with the recruit.

It was a valuable, professional and comfortable relationship and I would highly recommend anyone needing the services of a physician recruiting firm to contact The Medicus Firm. Please feel free to contact me if needed for a more detailed explanation regarding our experience.
