

HEART OF TEXAS  
**HEALTHCARE**SYSTEM

May 24, 2018

I wrote a reference letter on June 9, 2015 and at that time we were working with Chad Rudel who was one of the recruiters with The Medicus Firm who specializes in Texas. He produced five highly qualified family medicine candidates and we ended up hiring two. All candidates presented matched our practice and community profile and as I had mentioned in the previous reference letter, "in over two decades of staffing health care facilities, I have found The Medicus Firm to be second to none."

Now its May 24, 2018 and I still stand by the statement I had made back in 2015. Since April 20, 2017 I have been working with Nicki Moore another Texas specialized recruiter for The Medicus Firm. She has placed three Family medicine physicians and one Advance Nurse Practitioner in a years' time!

I can't say this enough times, The Medicus Firm is the best permanent physician recruitment firm in the market. They deliver! Now they have an upgraded progress report which is mobile friendly and allows me to see all the candidates who have been screened, their feedback, and full details about them, all easy for me to access at any time. If you are considering a search firm to help you recruit, I highly recommend you take a look at The Medicus Firm and experience what I have.
