To Whom It May Concern:

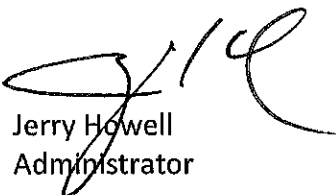

Sabine County Hospital engaged the services of The Medicus Firm to assist us in locating a Family Practice Physician. We got one.

It was not a quick and easy placement. I worked closely with Chad Rudel over a few months sorting through resumes'. Chad provided judgment, guidance, insight and professionalism during this search. Chad did thorough interviews and provided me with an excellent summary of the candidates. This preparation by Chad allowed me to utilize my time and energy interacting with applicants who were not only qualified but interested.

As you can imagine, recruiting to a rural Texas county of 10,000 people was not easy. Chad did not give up. Utilizing the resources of The Medicus Firm, he continued to be our advocate. One of the most important things Chad did was provide excellent planning for onsite visits by prospective physicians. The information packet he developed augmented the preparation for the visit and also the visit itself.

I truly appreciated this experience and will choose The Medicus Firm for my next search.

Sincerely

Jerry Howell
Administrator
