RE: The Medicus Firm

To Whom It May Concern:

I am the Executive Director and Chief Institutional Officer for Seton Healthcare Network's graduate medical education programs in Austin and also the Senior VPMA for the Seton Healthcare Network. Bob Collins and The Medicus Firm have assisted us in numerous searches for community physicians and clinical faculty. Bob has been very professional in his work, has been effective at meeting time deadlines to which he has committed and has produced an excellent selection of viable candidates from which we might choose.

He stays involved with candidates and follows up aggressively to complete the task of employment.

I would strongly recommend Mr. Collins and his company if you are considering a professional search.

Sincerely yours,

James Lindsey, M.D.
Executive Director
Austin Medical Education Programs
Senior VPMA
Seton Healthcare Network
