The Medicus Firm
3010 LBJ Freeway, Suite 1300
Dallas, TX 75234

To whom it may concern,

I am currently the practice administrator of our employed physician network at Peterson Regional Medical Center in Kerrville, Texas. In 13+ years in practice administration, I have worked with many recruiting firms, both contingent and retained. I am happy to be able to recommend Jason Farr and The Medicus Firm to any hospital or practice.

Our hospital, Peterson Regional Medical Center, engaged The Medicus Firm in December 2012' to recruit additional primary care physicians to our community. The other firms we were using at the time were not providing us quality candidates. Jason conducted a thorough profile of our hospital, practices and the community. This assessment proved to be a vital piece in the recruiting process and helped identify obstacles that were keeping us from attracting physicians. I appreciated how he was keenly focused on the personality and type of physician that we needed.

During the primary care recruitment process we had an urgent situation arise with an immediate need to recruit two OBGYN physicians. With The Medicus Firm as our recruiting partner, we were seamlessly able to add those searches to our existing project and secured two OBGYNs in less than 60 days. We also secured a primary care physician the following month.

Jason Farr and The Medicus Firm provide a level of professionalism, knowledge, commitment and ultimately success that I had not experienced with other firms. They are a true "partner" to our hospital, and I recommend them wholeheartedly to anyone else looking for a true recruiting partner!

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Rye", is written over a large, stylized, dark, curved shape that resembles the top part of the Peterson Medical Associates logo.
