To Whom It May Concern:

Our clinic had the good fortune of working with Grant Alexander from The Medicus Firm in our recent physician search. After having searched for 16 months and using several other recruitment firms and having no results, we finally were introduced to The Medicus Firm.

Grant arrived to our first meeting very well prepared, professionally presented, so very friendly and most evidently knowledgeable in all aspects of physician recruitment. I immediately felt that he and his firm would be successful in their search on our behalf.

He followed up with me soon afterward with a recap of our meeting and an outline of his plan to have a successful recruitment process for our clinic. Within 3 months, we had a physician signed with us. The whole process and the communications with both me and our recruited physician has been nothing short of top notch and very professionally performed. Grant exhibited a contagious enthusiasm and a sense of urgency that we needed, and it worked.

Grant was "on top of" all aspects of the recruitment process. He kept me so very well informed and provided our physician candidate with accurate and detailed information about our practice opportunity and our community that I know influenced his decision to join our group. I therefore have absolutely no reservations in recommending Grant and The Medicus Firm to anyone for their physician recruitment needs. They not only came across in a confident and professional manner, but they delivered timely results.

Sincerely,

Laurie Rast
Practice Administrator
