To Whom It May Concern:

It is with great pleasure that I write this reference letter on behalf of The Medicus Firm. I have had the pleasure to work with them for the last year and couldn't be more pleased with the results. Based on past experiences, I have never been a big fan of using retained physician recruiting firms, but my experience with The Medicus Firm has dramatically changed my thinking.

In the year that we have been working together, we have already signed 6 physicians and are about to sign our 7th! All the more impressive is that 5 of these physicians are in the very tough specialty of Internal Medicine. I find that my recruiter is both professional and timely in his communication with me, consistently follows through with the plans we establish, and effective in closing candidates on our opportunities.

I expect to continue to have a long and sturdy partnership with TMF, and would recommend them as a solid firm that delivers with both customer service and results.

Sincerely,

Lori Stephenson
Director, Physician Relations
Yakima Regional Medical & Cardiac Center
